

College Articulation Agreements by Program

Numbers under "Credits" reflect potential semester hours of credit: x = credits determined on an individual student basis. In addition to course articulation unique to each CVCC program, students in all CVCC programs have the option of taking Aligned College Math, an Advanced Intermediate Algebra course, for college credit at CVCC. For further information, contact Dave Mangas at 440-746-8320 or email him at dmangas@cvccworks.com.

Program	College	Credits
Architectural & Mechanical Design		
	Aligned College Math	5
	Art Institute of Pittsburgh	9 qtr
