PRESORTED (FIRST-CLASS & STANDARD)

Presorting your mail can give you much lower postage rates. Group your mail by zip code so all mail pieces going to the same area are in the same bundle or tray.

FIRST-CLASS PRESORTED

First-Class Presorted mail is typically used for personalized/unique mail, such as invoices and statements. Each mailing must contain at least 500 pieces. Delivery is typically 1-3 business days.

	FIRST-CLASS PRESORT TYPE	LETTERS (UP TO 2 OZ)*	LARGE ENV/FLATS (UP TO 1 OZ)*	POSTCARDS
AUTOMATION	Machinable, Non-Automation	\$0.452	\$0.798	\$0.283

	5-Digit	\$0.399	\$0.630	\$0.263
	3-Digit	\$0.376	\$0.438	\$0.250

*For higher weights pricing, see [USPS Notice 123](#).

STANDARD PRESORTED

Standard Presorted mail is typically used for general non-personal mail like advertising and catalogs. Each mailing must contain at least 200 pieces. Delivery is typically 2-9 business days.

Up to 33 oz. Automation unless otherwise noted

STANDARD PRESORT TYPE	LETTERS	LARGE ENV (FLATS)

See Glossary on [Page 18](#) for definitions of Presort Types.

RESOURCES

USPS Mail Preparation Requirements

General Requirements & Considerations for First-Class/Standard Presorted:

- Non-profits do not receive an additional discount from Presort
- Presorted mail requires first setting up an account with USPS
- All addresses should be checked against NCOA (move updates) and CASS (addressing standards)
- More savings can be achieved by applying an Intelligent Mail Barcode on each piece
- Mail is usually dropped off at post office

NONPROFIT

Nonprofit organizations can get significant postage discounts, as much as 84% off retail. You can get as much as a 24% discount with just simple zip code sorting.

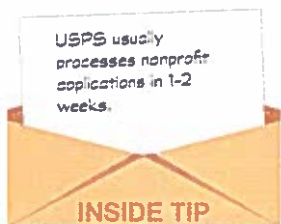

Nonprofit mail is sorted and prepared the same way as regular Standard Mail, making it suitable for general mailings like event promotions. It is not applicable to personal/unique mail like invoices or statements.

NONPROFIT RATES

3.3 ounce or less Automation unless otherwise noted.

Commercial Base Pricing

How to Get Commercial Base Pricing Discounts

Commercial Base Pricing (CBP) is available when you use a postage meter or online postage service. For example, FP's PostBase meter combined with MailOne 2.0 software offers CBP, which can enable you to quickly save enough in postage to recoup the equipment/software cost.

IMpb Bar Code

Postage meters and online mail services can print IMpb® labels at the commercial rate.

RETAIL GROUND (STANDARD POST)

Typical Use: Purchased at Post Office retail counter. Good for large packages. (Includes tracking)

Max Weight: 70 lbs.

Delivery Type: Typically 2-8 business days

RETAIL GROUND RATES

Retail Ground prices range from \$6.75 to \$169.92, depending on weight and destination.

Retail Pricing

What is Retail?

The Postal Service refers to "retail" as purchases made at local post office counters.

Retail prices are almost always higher than their commercial counterparts. The commercial ground service is called Parcel Select Ground

Choose Retail Ground for occasional large packages with "less-than-urgent" delivery.

INSIDE TIP

MAILER'S GLOSSARY

3-Digit, 5-Digit Automation – Mail is presorted by the first 3 digits or 5 digits of recipient zip codes.

AADC (Automated Area Distribution Center) – A USPS distribution center that scans and processes automation compatible mail.

Automation – Mail class for mail that can be scanned and processed by USPS automation equipment. (See Machinable below.)

Carrier Route Presort Mail – Discounted mail sorted by carrier routes. (See Enhanced Carrier Route below.)

CASS (Coding Accuracy Support System) – A USPS electronic service that verifies the syntax and accuracy of addresses.

Certified Mail – First-Class or Priority Mail that gives the sender proof of delivery.

Commercial Base Pricing (CBP) – Discounted postage pricing offered by USPS online, PC postage, and some postage meters/software.

Direct Mail – Advertising and promotional mail delivered to potential customers (e.g. brochures, catalogs, postcards, newsletters and sales letters).

Enhanced Carrier Route (ECR) – A type of Carrier Route Presort Mail (see above) that is automation compatible and sorted by carrier route sequence.

First-Class Mail (FCM) – A collection of letter, flat, and lightweight parcel subclasses, typically delivered within 1-3 business days.

Flat – Mail contained in a large, flexible, evenly thick envelope.

Franking Machine – European term for postage meter.

Indicia – An imprint that represents U.S. postage printed by an authorized postage meter.

Information Based Indicia (IBI) – An indicia with a square machine readable barcode that encodes machine-readable information about the postage.

Intelligent Mail Barcode (IMB) – A horizontal barcode that encodes information about the mail piece, including addresses and tracking. (Superseded by IMI below.)

Intelligent Mail Indicia (IMI) – Replacing the IMB standard (above), a horizontal barcode that encodes more information more securely than IMB.

Intelligent Mail Package Barcode (IMpb) – A horizontal barcode for packages that encodes information about the sender, recipient, package, and tracking.

Letter – A message to a particular person, written on a mailpiece no larger than 11½"x6¼"x¼", typically enclosed in an envelope.

Library Mail – A package service mail class intended for media items (e.g. books, documents and recordings) sent between educational institutions.

Machinable – Mail that is compatible with USPS automated scanning & processing equipment. (See Automation above.)

Media Mail – A package service mail class intended for non-promotional media (e.g. books, documents and recordings).

Metered Mail – Mail with postage applied by an authorized postage meter or Online/PC postage service. (See Indicia above.)

National Change of Address (NCOA) – A USPS database containing U.S. resident changes of address. Can be accessed electronically via the National Change of Address Linkage System to correct addresses before printing them.

Nonprofit Mail – A set of discounted mail rates available to qualifying non-profit organizations.

Package/Parcel – A mailpiece larger than a letter or flat, typically (but not necessarily) a box.

Permit Imprint – A postage indicia containing mailing permit number that represents postage paid in advance from a USPS deposit account for mailings of at least 200 pieces.

Presorted Mail – A set of postage discounts based on sorting mail prior to handing off to the post office, usually requiring at least 500 pieces per mailing.

Registered Mail – An extra service intended for very valuable mailpieces. In addition to proof of mailing and delivery, provides documented chain of custody.

Return Receipt – An extra service that provides sender with proof of delivery, including recipient signature for items that don't come with USPS Tracking.

Signature Confirmation – An extra service that requires recipient's signature, which is available as a record for the sender.

Standard (Bulk) Mail – A class of commercial mail with postage discount intended for mailings of at least 200 identical mailpieces (e.g. catalogs, advertising flyers, newsletters).

Zones – Postal zones are price categories based on origin and destination zip codes. Prices trend higher with longer distances and more rural origin and/or destination locations.
