Our 2016 Distinguished Alumni Award Winners

Jo Blackwell-Preston
Class of 1985
Cosmetology

CVCC had the pleasure of honoring Cosmetology graduate Jo Blackwell-Preston with the prestigious Distinguished Alumni Award at this year’s 2016 Senior Recognition Night.

Blackwell-Preston began her journey at CVCC over 30 years ago and attributes much of her success to those core values and skills she learned at CVCC.

“I would not have become a successful hair stylist had I not gone to CVCC. My two years at CVCC were the most influential years of my high school career,” said Blackwell-Preston.

After graduating from CVCC, Blackwell-Preston began her career as a world-renowned cosmetologist traveling to destinations such as Jamaica, Paris and Texas to share her gift of making women beautiful.

She now resides in New York City along with her husband and two children. She has evolved into a savvy business woman as the owner of Dop Dop Salon and global design director for L’Oreal Professional. Blackwell-Preston is a clear example that CVCC really does work!

Joseph Lamatrice
Class of 1985
Auto Mechanics

Joe Lamatrice is an instructor and proud graduate of CVCC and was also honored with the Distinguished Alumni Award.

After working in the automotive field for many years, Lamatrice returned to his alma mater to teach future automotive technicians.

Described by his peers as a devoted instructor, Lamatrice is very knowledgeable in the field of auto technology.

"He knows his subject matter, he plans and presents his lessons well, and always stresses the safe and proper use of tools and equipment," said James Scanlon, a substitute teacher that has worked side-by-side with Lamatrice.

In addition to teaching, he has a true passion for drag racing. When not teaching at CVCC, you can catch him traveling the country participating in drag races from California to New Hampshire.

Sandra Leech
Class of 1997
Office Systems Specialists

Sandra Leech is a dedicated employee of CVCC and a new recipient of the Distinguished Alumni Award.

Leech currently serves as an administrative assistant in our Job Placement Department. She is a dynamic addition to this department where she constantly embraces the value of helping others.

“When it comes to administrative tasks, she works efficiently and effectively. One of her main goals is to make the teachers and students’ lives easier as it relates to Job Placement”, said Thressa Brown, Job Placement Coordinator.

Recently CVCC stepped into the digital world by using Google Docs and electronic job databases. Leech was instrumental in the creation of resume templates using Google Docs and developed a better method for electronically processing job postings. As a result, employers are now able to post jobs on our website.

Starting in July, Leech will assume the role of assistant to CVCC’s new executive director. Thank you for all your hard work in keeping CVCC afloat.

Adult Ed Offers EKG, Phlebotomy, Dental Assisting, Web/Graphic Design and More!!!

Wed. Aug. 17, 6-7 p.m.
Mon. Sept. 12, 6-7 p.m.
Tues. Sept. 20, 6:30-7:30 p.m.

For a complete listing of Adult Ed classes, access the online Adult Education Fall/Winter catalog.
Each year CVCC honors members of an organization that we hold near and dear to our hearts. These individuals work with CVCC’s staff and students and go above and beyond to make each person’s experience a positive one.

Our first winners are Ben Courson and Eileen Toghill from Ohio CAT. Courson works as a technical training supervisor and Toghill as an employment manager.

Courson has been a key supporter of CVCC’s Power Equipment Technology program. Courson has proven his dedication to CVCC’s students by lending his professional time through presenting students with topotics related to heavy equipment and systems operations. In addition, he provides tours of the Ohio CAT dealership and serves as a judge at regional, state, and national diesel contests. Lastly, Courson serves on the Power Equipment Advisory Committee where he continues to give guidance to improve the curriculum of this program.

Toghill also serves as a huge supporter of the Power Equipment Technology program as she provides our students with real-life experiences like the Industry Interviews Project. This program gives students the opportunity to visit with different companies to learn more about their organization and their industry.

Thank you to both of these recipients. CVCC truly appreciates your dedication.

CVCC’s second winner is Mary Stevens. She was nominated by Patty Kemp, Transition-To-Work instructor for all the hardwork and dedication she has displayed through working with her class.

Stevens serves as a dietary manager at Chippewa Place Retirement Living in Brecksville. Students enrolled in this program have a non-paid job training site at this facility. Every Tuesday, students work with Stevens in the dining room.

She is more than just a supervisor, but takes a personal interest in the advancement of each student. Stevens really has a passion for working with special needs students. In addition, the students have bonded with her and they have developed a true connection. Once they have transitioned out of the program, they are eager to visit with Stevens and often times ask about her.

Stevens has made an impact on the lives of these students through teaching them valuable working skills. These life-long lessons have allowed many students from the Transition-To-Work program to obtain quality experiences despite living with a disability.

We are honored to have Stevens working with our Transition-To-Work students. This award was well deserved.

Kevin Kennedy received an invitation to apply for this year’s inaugural Career and Technical Education (CTE) U.S. Presidential Scholars Program. On June 22, 2015 President Obama signed an expansion of the U.S. Presidential Scholars program to include CTE students. Guiding principles for the nomination include academic rigor, technical competence, employability skills and ingenuity and creativity.

Kennedy recently graduated from Nor donia Hills High School and was enrolled in the Programming and Software Development program at CVCC. He was one of only five students from Ohio, which according to the Ohio Department of Education has over 121,000 students enrolled in CTE, who was invited to apply.

Kennedy did apply for the scholarship this past February and was selected as a semifinalist. Even though he was not chosen as a Presidential Scholar, CVCC is confident he has a bright future ahead of him.

This coming fall, Kennedy will use his career tech skills he learned at CVCC to attend the University of Texas at Dallas majoring in computer engineering.

Thank you for sharing your talents with CVCC over the past few years. We wish this young man an abundance of success.
Architectural & Mechanical Design

AUBLE, Daniel – 2015-2016: Scholarship CVCC Endowment Scholarship $1,000

Auto Body Repair & Refinishing

FULTZ III, Larry – 2015-2016: Early Placement at Auto motive Excellence, 5th Skills USA Regional Auto
