## Miami of Ohio Admission Notes

**Test Scores:** While agency-reported electronic scores are preferred, we will accept ACT or SAT test scores provided on official high school transcripts for admission and scholarship consideration. Enrolling students who provided test scores via their high school transcript will be required to send official scores directly from the testing agency before the start of their first semester.

**New Majors:** I am excited to share we have three new majors available to students applying for Fall 2020: [Organizational Leadership](#), [Data Analytics](#), and [Games + Simulation](#). All are now available on the Common Application. For admission to Games + Simulation, applicants must [submit a concept document](#) for a game they have or would like to produce.

**Early Decision Applicants:** You will receive more information about our Early Decision (ED) applicants prior to the December 1 decision release, but I wanted to let you know now that ED decisions are binding only for students who are admitted to their first-choice major. Some ED applicants will be admitted to alternative

programs and for them, the admission decision will not be binding.

If you have any questions about Miami or the application process, please feel free to [contact your Miami admission representative](#).
