

Autodesk software (Autocad, Revit, and Inventor): Please note only Autocad can be installed on a Mac. You will need a machine running windows (chromebooks will not work!) to install the software.

<https://www.autodesk.com/education/edu-software/overview?sorting=featured&page=1>

1. Go to link above.
2. Sign In/Create an account (do not use the download links on the landing page, they are trials)
3. Use your CVCC email to register your account. This should be firstname.lastname@stu.cvccworks.edu. For "Institution type" select "High School/Secondary". For Name of educational institution type "CVCC" then select "Cuyahoga Valley Career Center" from the drop down.
4. Click "Verify".
5. Download and follow the installation instructions for each software. Please note you do not need Inventor, it is a substitute for Solidworks; however, instruction for class will only use Solidworks.
