Work-Based Learning at CVCC

The 2020-2021 CVCC Early Placement program for High School seniors started on January 19. This program is an opportunity for our best students, those who have a B average and nine or fewer absences during their time at CVCC, to obtain field experience. During Early Placement, students typically work four afternoons a week instead of attending their CVCC program so that they can have real-life work experience to increase their job-ready skills and possibly lead to full-time employment

following the completion of their program. The second release of students, who have a B average and eleven or fewer absences, was February 16. As of February 23, we have 21 students from 10 different programs participating in Early Placement or Paid Internships. Students are making a minimum of \$8.80, the 2021 Ohio Minimum Wage, and up to \$15.00 per hour at this time. CVCC's Dental Assisting program has the greatest participation in Early Placement so far with eight students currently working. The Cosmetology Programs also started internships at the end of November. As of February 18, eighteen Cosmetology seniors are participating, working after class and on weekends to secure salon experience. CVCC appreciates the following district businesses that are employing our students: A1 Power Equipment, A&A Heating and Cooling LLC, Discount Tire, GPD Group, NTB, Roe Dental Lab, Summit Dental Specialists, and Summit Point. We wish all our work-based learning students the best of luck as they contribute to our region's workforce.
