## **Tawanna "Nikki" Crumedy** **Garfield Heights District**

Tawanna "Nikki" Crumedy is an adult student from the Garfield Heights area who is enrolled in CVCC's part-time Practical Nursing program. Nikki chose this program due to her passion for helping others. She has dreamt of pursuing the nursing field for a while, and when the pandemic hit, she thought it was the perfect time to go for it. Nikki looks forward to completing the program, as it will be a huge accomplishment for her. Nikki explains the importance of staying organized, as there are many elements to stay on top of. Nikki appreciates that CVCC brings students from surrounding districts together, as well as provides avenues for success in many different fields. She also is grateful that evening class options are available for those who need to work while attending school.

Nikki currently works for a company called PSI, which services school districts by offering a variety of health-related jobs. Nikki is a medical assistant where she passes out medications and provides first aid services. In Nikki's free time, she enjoys reading books of the paranormal genre; she also considers herself a movie connoisseur. After graduating from the program, Nikki plans on becoming a travel nurse or continuing to work through various agencies. Ultimately, Nikki would love to become a labor and delivery nurse. Keep up the exceptional work, CVCC is thrilled to be a part of her journey!
