Robert Rock

Revere District

Robert Rock is a senior from the Revere district and is enrolled in CVCC's Machine Technology program instructed by Mr. Parrott. Robert chose this program due to his interest in the field and wanting to learn more. He has enjoyed getting to know his fellow classmates, as well as using the different cutters available in the program. Learning code has been a challenging component of the program; however, Robert is up for the task. Robert appreciates the friendly environment CVCC provides, as well as the great teaching staff who are always willing to help students.

At Revere, Robert is a leader in a student support group that meets regularly; this group is an avenue for students to be there to support and help one another. A staff member for Revere notes that Robert, "...is resilient, kind, and truly cares about others." Outside of school, Robert works at a local McDonald's. In his free time, he enjoys playing video games and spending time with friends. After graduating high school, Robert plans on joining the United States Navy, which he feels will give him a solid foundation. Robert is contemplating entering the culinary field in the future after his Navy career, as it is another area he greatly enjoys. Best of luck in all that you do Robert!
